HEAT TRAK™

Outdoor Heated Mats

- Melts snow on contact for safer entranceways
- Melts snow at a rate of 2" per hour
- Extremely durable to endure harsh wear and weather

HEATED STAIR MAT SYSTEM

Reduce slip-and-fall accidents outside your home with HeatTrak's® heated stair mat system. The HeatTrak® heated stair mat is an electrically heated mat designed to prevent snow and ice accumulation on stairs. The HeatTrak® mat plugs into any standard 120V outlet generating heat to melt snow at a rate of 2" per hour. The HeatTrak® mat is extremely durable and is designed to be left outside for the entire winter season. Each stair mat is designed with watertight connector cables enabling it to connect to additional stair mats. A customer can connect up to 10 stair mats on a single outlet. *Power plug sold separately.*

Product Dimensions: 10" x 30" x 0.25"
Surface Color: Charcoal
Surface Material: Weatherproof, Ribbed Carpet

HEATED DOORMAT

The HeatTrak® Door mat is an electrically heated mat designed to prevent snow and ice accumulation around your front door. The mat plugs into any standard 120V outlet generating heat to melt snow at a rate of 2" per hour. The HeatTrak® mat is charcoal gray and has a ribbed carpet surface providing your home with the look of a stylish high-end welcome mat. Turn the mat on before or after a snow fall and watch the mat *melt snow on contact!* The HeatTrak® Doormat is not only durable enough to endure the harshest of winter's elements, but now with its newly designed detachable plug, the door mat makes a perfect addition to your house all year round!

Product Dimensions: 24" x 36" x 0.4"
Surface Color: Charcoal
Surface Material: High UV Olefin Fiber
